

# Muzamil Hussain

## AI-Driven Full-Stack Developer (MERN)

Cell: +92 303 0458064 | Email: muzamilhusain.dev@gmail.com | Lahore, Punjab, Pakistan

[linkedin.com/in/muzamil-mern-stack-developer](https://www.linkedin.com/in/muzamil-mern-stack-developer) | [github.com/hussain-labs](https://github.com/hussain-labs) | Portfolio: [muzamilhussain.netlify.app](https://muzamilhussain.netlify.app)

## SUMMARY

Full-Stack MERN Developer with professional experience building scalable, production-ready web applications using React.js, Next.js, Node.js, Express.js, MongoDB, JavaScript, TypeScript, REST APIs, Redux Toolkit, and AWS. Experienced in developing responsive user interfaces, backend APIs, authentication systems, state management, and cloud deployment. Passionate about writing clean, maintainable code and delivering high-performance software solutions.

## PROFESSIONAL EXPERIENCE

### CallBackCrew

#### Full-Stack Engineer (Full-time)

Apr 2026 – Present

- Developed and maintained scalable **MERN Stack** web applications for production environments.
- Built backend APIs, integrated third-party services, and maintained application databases.
- Collaborated with designers and developers in an **Agile** environment, participating in code reviews and sprint planning.
- Managed deployments using **AWS EC2, PM2, Nginx, Git, and GitHub**.
- Followed clean coding practices and delivered scalable, maintainable solutions.

#### Frontend Web Developer (Part-time)

Mar 2025 – Apr 2026

- Developed responsive user interfaces using **React.js, Next.js, Tailwind CSS, HTML5, and CSS3**.
- Built reusable UI components and integrated frontend applications with REST APIs.
- Worked closely with backend developers to deliver production-ready web applications.

## PROJECTS

### Inzaar: ( LMS ) | [Live Demo](#)

Team Lead

- Led the development of a **MERN Stack** LMS with **Student, Moderator, and Admin** dashboards.
- Implemented **role-based authentication**, batch management, and course management features.
- Coordinated the development team and contributed to both frontend and backend development.

**Tech:** React.js, Node.js, Express.js, MongoDB, Redux Toolkit, Tailwind CSS

### PayChain: ( AI-Powered Decentralised Merchant Transaction Platform ) | [Live Demo](#)

Full Stack Developer

- Developed a **Web3-enabled** merchant transaction platform using the **MERN Stack** and blockchain technologies.
- Integrated **RAG** and **LLMs** to enable AI-powered, context-aware transaction processing.
- Built secure backend APIs and connected the frontend with blockchain services.

**Tech:** React.js, Node.js, Express.js, MongoDB, Web3, Blockchain, RAG, LLMs

### Recyco Track: ( AI-Powered Scrap management Platform ) | [Live Demo](#)

Team Lead

- Led development of an AI-powered scrap management platform with **User, Admin, and Rider** portals.
- Designed the **MongoDB database schema** and integrated the **Gemini AI API** for image analysis.
- Coordinated development while contributing to both frontend and backend implementation.

**Tech:** React.js, Node.js, Express.js, MongoDB, Gemini AI, Tailwind CSS

### Shinvo: ( E-commerce web Application ) | [Live Demo](#)

Full Stack Developer

- Developed responsive storefronts and admin dashboards using **React.js** and **Tailwind CSS**.
- Assisted backend development by implementing REST APIs and integrating frontend services.
- Improved UI responsiveness and optimized application performance.

**Tech:** React.js, Node.js, Express.js, MongoDB, REST APIs

**KeyStrokes:** ( Web-Based Typing Test & Practice Application ) | [Live Demo](#) **Frontend Developer**

- Independently designed and developed a typing practice application using **React.js**.
- Implemented typing analytics, local storage, and responsive user interfaces.
- Built reusable components and optimized user experience.

**Tech:** React.js, JavaScript, Tailwind CSS, Local Storage

**Patient Management System:** ( Healthcare Appointment & Records Platform ) **Full Stack Developer**

- Developed a patient management system for eye specialists using the **MERN Stack**.
- Built secure backend APIs and intuitive interfaces for patient and appointment management.
- Implemented CRUD operations and responsive dashboards.

**Tech:** React.js, Node.js, Express.js, MongoDB

**Corporate & Personal Portfolios** | [Live Demo](#) **Frontend Developer**

- Independently developed custom portfolio websites for corporate clients and individuals at CallBackCrew.
- Built responsive, high-performance interfaces using **React.js** and **Tailwind CSS**.
- Delivered modern UI/UX with reusable components and optimized performance.

**Tech:** React.js, Next.js, Tailwind CSS

**EDUCATION**

**Bachelor of Science in Computer Science** | University of Sahiwal 2022 – 2026  
CGPA: 3.82 / 4.00 | 95.50% (A+)

**Intermediate (FSc Pre-Engineering)** 2018 – 2020  
Grade: 83.18% (A+)

**SKILLS**

- **Frontend Technologies:** React.js, Next.js, HTML, CSS, Tailwind CSS, JavaScript (ES6+), TypeScript
- **Backend & Server:** Node.js, Express.js, RESTful APIs, JWT Authentication
- **Databases:** MongoDB, MongoDB Atlas, SQL
- **State Management:** Redux Toolkit, React Query, Context API
- **Cloud & Deployment:** AWS EC2, Azure, PM2, Nginx
- **Development Tools:** Git, GitHub, Postman, VS Code, Vite, npm
- **API Design:** RESTful APIs, GraphQL API
- **Architecture & Practices:** MVC Architecture, Micro-Frontend Architecture, API Integration, Responsive Web Design, Performance Optimization, Agile Development
- **Soft Skills:** Problem Solving, Critical Thinking, Team Collaboration, Communication

**PROFESSIONAL CERTIFICATIONS**

- **Developing Front-End Applications with React** | IBM, [View Certificate](#)
- **Introduction to Software Engineering** | IBM, [View Certificate](#)
- **Software Engineering Essentials** | IBM (Credly by Pearson), [View Certificate](#)
- **AI Fluency: Framework & Foundations** | Anthropic, [View Certificate](#)
- **Advanced Learning Algorithms** | Stanford University, [View Certificate](#)
